## Improved Functionality - Copying and Pasting CAS Numbers into the CDT

Copy and Paste Function for CAS Numbers in Formpak.

You can copy and paste Compositions of Formulations or Raw Materials from a spreadsheet into Formpak.

In the 'Add a New Formulation' or 'Add Composition to Raw Material' it will take you to the CDT of the Formulation or Raw Material. Copy the CAS and Concentration amount from the Excel Spreadsheet if the components have the same CAS numbers, the system will find them and apply the Item in the CDT with the concentration. You can also use the Item Code and the concentration. The data needs to be side by side with the CAS/Item Code first then the Quantity.

Previously when copying and pasting into the CDT and multiple Items matched the same CAS, the system would automatically select one without showing you that other options were available. This sometimes led to incorrect selections.

Now, in the CDT when more than CAS match one match exists, three dots (...) will be displayed giving you visibility of all available options.

**Edit Composition of Formulation**

Total Price: 1.0519 EUR(Default)  
Components Count: 64  
Total Concentration: 100.00006  
 Adjust all components  Adjust selected components

**Composition**

Seq	Code	Name	Concentration	(?)	CAS Number	EC Number
18	!COUMARIN	... @ COUMARIN	1.4		91-84-5	202-086-7
19	ACCGALAXOLIDE	... ACCUMULATOR GALAXO	1.3		1222-05-5	214-946-9
20	00084	... ALLYL AMYL GLYCOLATE	1.2		67834-00-8	266-803-5
21	00020	... VANILLIN	1.1		121-33-5	204-465-2
22	ILIMONENE	... @ LIMONENE	1.0507		5989-27-5	227-813-5
23	ILINALOL	... @ LINALOL Beas X1 Deux	1.0044		78-70-6	201-134-4
24	AUTO-2327	... Methyl N-methylanthranilat	1		85-91-6	201-842-6
25	ANI0001	... ANISALDEHYDE	1		123-11-5	204-802-6
26	00050	... ALDEHYDE C12 Lauric	0.8		112-54-9	203-983-6
27	ALL0010	... ALLYL HEPTANOATE	0.7		142-19-8	205-527-1

Select the dots and a drop-down list of Items with the same CAS will be displayed. You can review and select the correct Item with confidence.

Seq	Code	Name	Concentration	(?)	CAS Number	EC Number
18	91-64-5	@ COUMARIN	1.4		91-64-5	202-088-7
19	Code	Name	Unit Price	Matched Attribute:Value		
20	ICOUMARIN	@ COUMARIN	0	RawMaterial [CAS Number1]: 91-64-5		
22	AUTO-1851	Coumarin		RawMaterial [CAS Number1]: 91-64-5		
24	COMP-LM4241	Coumarin		RawMaterial [CAS Number1]: 91-64-5		
25	COMP0009	Coumarin		RawMaterial [CAS Number1]: 91-64-5		
27	FPD-2011A-1851	Coumarin		RawMaterial [CAS Number1]: 91-64-5		
28	FPD-2013A-1885	Coumarin	18	RawMaterial [CAS Number1]: 91-64-5		
30	FPD-2015A-1824	Coumarin		RawMaterial [CAS Number1]: 91-64-5		
32	FPD-2015A-1824	Coumarin		RawMaterial [CAS Number1]: 91-64-5		

It is a slight change that makes a significant difference. The enhancement improves accuracy by preventing incorrect material selection when duplicate CAS numbers exist and clearly displaying all possible matches. It increases transparency and user control during formulation, reduces risk, and improves data reliability.

## Mini Tip

### Share a Basket with another User

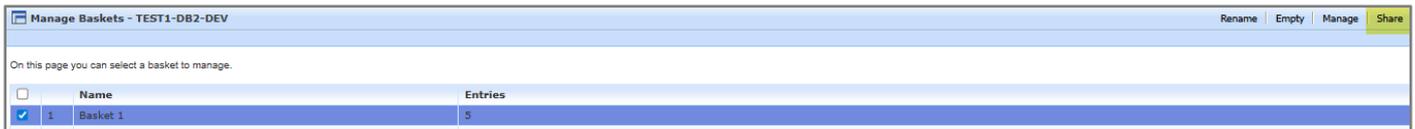

Users can now share (copy) a Basket with another User.

Baskets are a keyway of moving Items around Formpak. To access Baskets, press the 'Baskets' button, which is located top right, just under the 'Logout' button. Each Basket can be 'Managed' to change the Basket name, empty the Basket, or change the contents of the basket.

A new operation "Share" has been added to Manage Baskets, allowing Users to copy the contents of one Basket into the first empty Basket belonging to another User.

This feature ensures smoother collaboration, prevents manual duplication, and avoids user error in copying formulas and materials.

In Manage Baskets select the Basket and select Share.

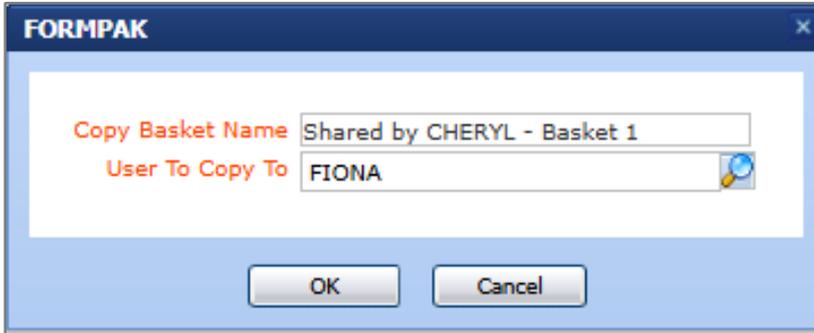

Manage Baskets - TEST1-DB2-DEV Rename | Empty | Manage | Share

On this page you can select a basket to manage.

<input type="checkbox"/>	Name	Entries
<input checked="" type="checkbox"/>	1 Basket 1	5

A box will appear.

**FORMPAK**

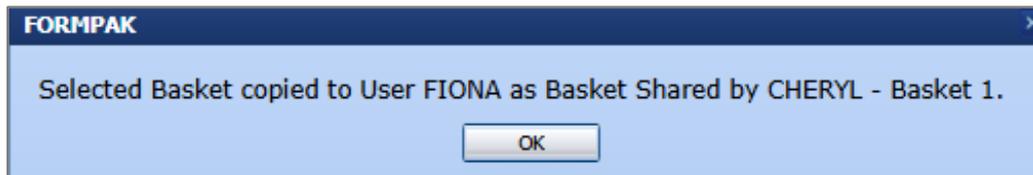

Copy Basket Name

User To Copy To

Edit the Basket Name if required.

Input the User in Copy To and select OK.

A confirmation message now will appear.

**FORMPAK**

Selected Basket copied to User FIONA as Basket Shared by CHERYL - Basket 1.

Select OK

In Manage Baskets for User Fiona we can see the Basket has been shared
